

"the way  
of life"

**Calicut**  
**Ayurveda**   
hospital & research centre ltd

Ayurveda ("The science of life") is the knowledge about life in various angles. It is a "way of living" rather than a mere medical science. It comprises prevention as well as treatment of the diseases. Ayurveda sticks to nature in its entire concepts and approach.

Nowadays this great science is seen to be handled by unknown and non-authentic hands. At this stage our company has evolved the idea of beginning a new centre with a different approach. Calicut Ayurveda Hospital and research centre is different in its kind having qualified doctors, experienced therapists, clean & calm surroundings, healthy food and beautiful atmosphere. This centre holds the essence of Ayurveda and in its tradition, but updated with modern technologies.

Calicut Ayurvedic Hospital is 150 bedded attached with nursing school, situated in the greenery of chathamangalam village in Calicut. Besides Hospital, our company is planning to start Medicine factory, Herbal garden and Ayurveda Medical College.

Our dream is to become a referral centre for Ayurvedic doctors. For that we have fully

equiped I.P section which has already started functioning. We provide all Ayurveda treatments like Uzhichil, Steam Bath, Kizhi, Pizhichil, Sirodhara, Vasthi, Kativasthi etc. under the supervision of expert Ayurveda doctors. All treatments are done very scientifically without any compromise to the principles of Ayurveda; that too very economically.

Diseases like Arthritis, Skin diseases, Allergy, Sinusitis, Head ache, Low back ache, cervical and Lumber Spondylosis, Disc Prolapse, Diabetes, Hypertension etc. are treated here with atmost care.

We have special units for Heart block, Diabetes, Piles, Kidney Stone, BPH, Mother and Child health.
